Statement by Spokesperson of the Chinese Embassy in Denmark

2020/01/23

On January 23, a few individuals in Denmark and the Amnesty International erected an anti-China sculpture outside the Danish parliament, blatantly glorifying Hong Kong's violent radicals and singing praise for their violence. The aim is to interfere in Hong Kong affairs and China's internal affairs and to plunge Hong Kong further into the abyss of turbulence, with the ultimate goal of using Hong Kong to damage China's image and contain China's development.

No country or society will tolerate the act of undermining the rule of law and committing violent crimes in the name of democracy and freedom. The right to freedom of expression does not mean one can willfully slander and discredit another country. These individuals and anti-China organization in Denmark, by ignoring the ironclad facts and openly backing violent crimes, have fully exposed their double standards and extreme hypocrisy on human rights and democracy. The facts have once again shown that the close collusion between foreign forces and the radical violent forces in Hong Kong is an important reason behind the riots in Hong Kong.

At present, to stop violence and restore order is the most pressing task for Hong Kong. We have unwavering determination to safeguard China's sovereignty, security and development interests, to implement the principle of "one country, two systems" and to oppose any external interference into Hong Kong affairs. The pace of the Chinese nation's great rejuvenation is unstoppable. The conspiracy of a few people and anti-China organization in Denmark is doomed to fail.
